SHIP GOES DOWN; 300 PEOPLE DROWN

Admitting That it Was His Fault, Captain Suicides.

WAS CROWDED WITH EMIGRANTS

Italians, With Knives in Their Hands and Without Regard to Women or Children, Fought for Possession of the Lifeboats.

Cartagena, Spain, Aug. 7.—A terrible marine disaster occurred Saturday afternoon off the Cape Palos.

The Italian steamship Sirio, from Genoa for Barcelona, Cadiz, Montevedeo and Buenos Ayres, with about 800 persons on board, was wrecked on Hormigas island.

Three hundred emigrants, most of them Italians and Spaniards, were drowned.

The captain of the steamer committed suicide.

The bishop of San Pedro, Brazil, was also lost, and it is reported that another bishop is among the missing.

The remainder of the passengers and the officers and crew go away in the ship's boats of were rescued by means of boats sent to them from the shore.

A number of fishermen, who made attempts at rescue, were drowned.

Those rescued from the vessel are now at Cape Palos in a pitiable condition, being without food or raiment.

The Sirio struck a rocky reef known as Bajos Hormigas and sunk soon after, stern first. Hormigas island lies about 2½ miles to the eastward of Cape Palos.

The Sirio was owned by the Navigaoizne Italiana of Genoa.

Before he committed suicide, the captain declared the steamer had 645 passengers on board and that her crew numbered 127 men. The Sirio had 570 passengers when leaving Genoa but additional Spanish passengers were taken on board at Barcelona, where the vessel touched a few hours before the disaster.

The disaster occurred at 5 o'clock in the afternoon. The steamer was threading a difficult passage through the Hormigas group, where the Bajos Hormigas reef as a continual menace to navigation.

The vessel began to settle rapidly immediately after she had struck, and a terrible scene of confusion and panic ensued on board. The fishermen along the coast sought to render every assistance in their power and sent out boats, which brought many survivors ashore. Most of the officers and crew of the Sirio are among the saved.

The survivors have gone into a camp on the main square of the town at Cape Palos. Here harrowing scenes are enacted as the stricken families anxiously seek beloved members among the rescued.

A mother, who lost her three children, went insane. The doctor of the Sirio gave up his wife and child as lost, but they were finally brought in by one of the rescuing boats, and the scene as this family was reunited was most affecting.

One of the boats sent out by the fishermen brought in 24 passengers.

The condition of the survivors is most deplorable. They have lost everything and are without money, food or clothing. The maritime authorities of Cartagena have dispatched a tug to the scene carrying relife supplies. The buildings of a circus and the poorhouse are being used as temporary quarters for the survivors.

The latest reports from the cape say that three boats have just brought in a number of rescued. An additional sadness is added to the catastrophe owing to the fact that a number of fishermen, who were conducting rescuing operations, were drowned in consequence of the overturning of a boat.

The captain of the Sirio, just before he killed himself, attributed the disaster to his own imprudence.

The Sirio left Genoa on Aug. 2.

READY FOR CONVENTION.

Macon Citizens Pull Together to Entertain Political Gathering.

Macon, Ga., Aug. 7.—Within the next two or three weeks, arrangements for the coming of the state Democratic convention will be well under way and Macon will then devote the remainder of the time until Sept. 5 plans for taking care of the delegates. Leading business men all throughout the city have expressed themselves as eager to lend a hand in caring for the big meeting of state democrats and every effort will be made to provide ample lodging and comforts for the visitors.

During the three weeks prior to the date of the convention Macon's commercial bodies and public organizations will come to the front ready to put forwards the plans of providing for the convention. That there will be ample space for the sessions of the body in the big new city auditorium there is little doubt, and that building has been reserved for this purpose. The only duties remaining that will need attention are provisions for rooms and sleeping apartments for the visitors.

The chamber of commerce has already planned a bureau of information which will be given over exclusively to furnishing visitors with the places open to the delegates. This bureau will be charged with the duty of securing all the available houses in the city for the delegates, and as fast as they come they will be assigned to places from this office, which will be centrally located.

Macon business men are assuring inquirers that they will give all their time to providing temporary homes for those who come to nominate a governor.

Rescued at Danger Line.

Niagara Falls, Aug. 7.—Charles Walshand, his wife with several women, were rescued from a disabled launch in the Niagara river just as the craft was starting over the falls. The launch lost its propeller. Walsh tried to drop anchor but it did not hold. Then they shipped the oars and they snapped like pipe stems in the attempt to drive the heavy launch against the rapid current. One of the women tied a skirt to the broken oar and the attention of the people on shore was attracted. The party was rescued at the danger line.

Duel to Death for Girl's Sake.

Springfield, Mo., Aug. 7.—In the streets of Chadwick, Mo., Charles Freeman, a merchant, and Robert Keene, 18 years of age, shot each other to death with rovelvers. Suit recently was brought by Freeman charging Keene with assaulting Freeman's daughter. When the men met on the street both drew revolvers and fired. Freeman was shot in the forehead and in the left breast. Keene was shot three times in the heart. Both men were dead when the spectators reached them.

Second Week of Encampment.

Chatanooga, Aug. 7.—The second week of the encampment of regular and volunteer troops at Chickamauga national park, begins with the presence of four regiments of national guardsmen. They are the Second South Carolina, Colonel Thompson; Second Georgia, Colonel Gordon; Third Georgia, Colonel Harris; Fifth Georgia, Colonel Anderson, and the Second Georgia Field battery. Several officers of the Richmond, Va., howitzers are in camp on their own expenses.

Regrets Circumstances.

Berlin, Aug. 7.—The foreign office authorizes the Associated Press to say that the German government regrets that the plans of the navy department for the maneuvers in September include every ship available and preclude detaching vessels to visit the United States on the occasion of the American-German yacht races off Marblehead.

Young Girl Killed by Lover.

Guelph, Ont., Aug. 7.—Peter Wylie, a young scotch emigrant, Sunday, shot and killed the 15-year-old daughter of J. Swackhemer, his employer. Wylie was at work on Swackhemer's farm and wanted to go with the girl to a neighboring town. To this Swackhemer objected and in a fit of rage shot the girl.

PURE FOOD MEASURE BEFORE THE HOUSE

Owing to Interest in This Bill it Was Made Special Order.

MATTINGLY BILL SPECIAL ORDER

House Will Be Rushed With Work for the Remainder of the Session—Only One Session of the House Scheduled for Monday.

Atlanta, Aug. 7.—Owing to the rush of the work facing the house this week and all the remaining days of the session, and to the importance of passing certain measures, two bills have been made special orders, one for Monday morning and the other for Tuesday.

Monday morning when Speaker Slaton called the house to order the bill booked for consideration was the one introduced by Mr. Wright, of Floyd, dealing with pure food.

This subject is one of great interest to the members of the house and to the public at large, and it was in recognition of this fact that the measure was made a special order.

Mr. Wright does not believe that it will meet with much opposition in passage, as he says it conforms with national legislation on the subject.

Tuesday the Mattingly bond bill, by Mr. Hill, of Dooly, will be reconsidered. It has been pending in the house of representatives for many years, and concerns the payment of a debt contracted by the state during the civil war. The justice of the claim is supported by some, questioned by others.

The senate met Monday morning at noon, and because of the short amount of time allowed, only local bills were considered.

There is a continued special order before this body, however, in the amendment of Senator Candler to the tax assessors bill of Joe Hall, considered and passed in the house of representatives. It is not believed that this matter will be touched upon at once.

Both house and senate will be rushed with work this week, and while there will be but one session of the house Monday and a very short one of the senate, it is probable that two, even three sessions, will be the order of the day before the end of the present week, in order to rush off the calendar measures of such importance as demand consideration.

It is likely that Mr. Hall, of Bibb, will make another attempt to bring his anti-pass bill before the house, this measure being refused the privilege of a special order on last Friday.

The bill of Senator Carswell, seeking to prohibit members from riding on passes and in return increasing the perdiem of senators and representatives, is pending in the house.

A special deficiency appropriation bill of $97,000 is also pending in the house, for action some time this week, just when has not yet been decided. To this amount will be added $3,000 for advertising purposes. This measure is intended to cover appropriations made to different educational institutions in Georgia.

Conference of Railroad Men.

New Orleans, Aug. 7.—In connection with the new railroad rate law, an important conference of railroad men is scheduled here for Tuesday. It is to be composed of executive and traffic officials of all initial lines. The immediate subject to be discussed is the local drayage situation which has been in effect for a number of years and which it is said will be seriously affected by the new law. Vice President Harahan and Freight Traffic Manager Bowes of the Illinois Central; Vice President Biddle of the Frisco; General Freight Agent Defuniak, of the Louisville and Nashville, and several others are expected for the meeting.

Teamsters in Session.

Chicago, Aug. 7.—Union teamsters' leaders from many cities in the United States and Canada gathered here Monday for the opening session of the annual convention of the Teamsters' National Union.

100 PASSENGERS IN RAIL CRASH.

One Mail is Killed and Ten Other Persons Are Injured.

Allentown, Pa., Aug. 7.—Two cars of the Lehigh Valley Transit company carrying nearly one hundred passengers, collided head-on at Hofford's chapel, 3 miles from Allentown, Sunday, killing Motorman J. W. Esser and seriously wounding ten other persons. One car was running from Philadelphia to Macungie.

When the Macungie car reached the turnout beyond Hofford's chapel, the motorman threw the signal, giving the car from Philadelphia a clear track. With the grade in his favor, Motorman Esser pulled out of the switch and collided with the Macungie car, which was running rapidly in order to gain the turn out. Both motormen stuck to their posts and Esser still had his hand on the brake when released from the wreck. He died an hour later at a hospital.

General Manager Hall places the blame for the accident on Fritz, who, he says, disregarded the signal.

OFFICERS RAID CHINESE DIVE.

Father Thinks Savanah Opium Joint Responsible for Son's Trouble.

Savannah, Ga., Aug. 7.—The police Sunday night raided an opium joint at Brongton and Drayton streets in the heart of the city, and Charles Sing and Henry Long, Chinese in charge, wer carrested, while a white man was taken in charge as a witness.

Superintendent of Police Garfunkel had sworn out a warrant before entering the joint, upon information furnished by the father of S. H. Reed of Jacksonville, the young man arrested here a few days ago on charge of robbing the Tybee hotel. Young Reed could not get done in Jacksonville, the father said, and had come to Savannah to hit the pipe. It is to the use of opium that his implication in the alleged robbery is attributed. It was charged during the campaign here that an opium joint was being conducted at the location where the raid was made Sunday night, but the authorities made no arrests then.

Man Is Shot From Ambush.

West Point, Ga., Aug. 7.—Tom Williams, a Lanette mill operator, was shot near here by unknown parties, and is thought to be in a dying condition. With a party of friends, he attended a barbecue Sunday in the woods near the road. After the firing Williams' friend heard him groaning and discovered that he was on the ground, badly wounded. They took him to his home. It is not thought he will recover. It being dark at the time of the shooting, the attacking party was not seen and it is not known whether they were white or black.

Arbitration Project Signed.

Rio Janeiro, Aug. 7.—At Monday's session of the international congress an arbitratio nproject was unanimously signed. It ratified the adhesion of the conference in the principle of arbitration and recommends that the Pan-American delegates to The Hague peace conference be instructed to support an universal arbitration agreement. A vote of recommendation will be taken Tuesday.

Three in Race for Judgeship.

Atlanta, Aug. 7.—Judge Howard Van Epps, Judge W. R. Hammond and Hon. Benjamin H. Hill will be candidates for the position of judgeship in the new court of appeals which will be created if the action of the general assembly is ratified by a vote of the people next October, when the state election takes place.

GENERAL STRIKE MAY PROVE A FAILURE

Liberals Shrink From Horrors of a Civil War.

PUCLIC SYMPATHY IS LACKING

Many of the Leaders Are Only Lukewarm or Are in Open Rebellion Against Their Order—Endeavoring to Block Revolutionary Moves.

Petersburg, Aug. 7.—Unless dispatches from the interior within a few hours entirely change the situation the general strike promises to prove a complete failure.

Although the liberals are strongly opposed to the course of the government, they shrink from precipitating a revolution, and the horrors of a civil war, in which the country would be plunged if the plans of the proletariat leaders were successful. Not only is the sympathy of the intelligent public lacking, but in St. Petersburg many of the leaders are only lukewarm, or are in open rebellion against their order. When the central committee of the printers' union adjourned Sunday night, many of the men returned to their cases with the result that four newspapers appeared Monday morning.

The central committee of the railroad unions find many of their men unwilling to leave their positions and others half-hearted.

If the train service is not brought to a standstill the collapse of the strike movement is inevitable. The workmen's council, which apparently is a much weaker body that the similar council which managed the strike of last fall in fear of failure has already practically determined to resort to violence in order to stop traffic on the railroads, if the men refuse to join in the movement.

The authorities are using all the means at their disposal to block the revolutionary moves in every direction and appear convinced that the strike leaders cannot gather sufficient headway to endanger the life of the state. Indeed, they believe that nothing more than local strikes, which soon degenerate into the old story of crime and terrorism, will result.

Killed Friend; Sought Own Life.

Vineland, N. J., Aug. 7.—Nicholas Berti, aged 30 years, a well known resident of this city, was shot and instantly killed by Alexander Cordella, a prominent farmer living near this place. Both men had been to a party and Berti accompanied Cordelia to the latter's home. Near the house the men quarreled. Cordelia went to the barn, secured a shotgun and killed Berti. Cordelia fled and took refuge in a vineyard, where he was found by detectives. He confessed to having shot Berti, but said he did not want to hang. "Give me a knife or a revolver," he pleaded, "and they can bury me at the same time they do Berti." Some of Berti's friends tried to take the prisoner from the officers, and there was a free fight in which several men were hurt. The officers finally succeeded in getting their prisoners in the jail.

Florida Sheriff Suspended.

Tallahassee, Fla., Aug. 7.—Governor Broward has suspended from office Sheriff George R. Carter, of Citrus county, because he permitted without adequate resistance two prisoners to be taken from his custody by mobs, who lynched them, Frank Jordan being lynched on May 16 nd James Davis on June 7, thus outraging and bringing the dignity of the state into disrepute. E. P. Graham is appointed to succeed Carter.

Thomas Makes Another Ascension.

New York, Aug. 7.—The balloon Nirvana, carrying the owner, Dr. Julian P. Thomas, and the Aeronaut Roy Knabenshue, made an ascension this afternoon shortly before dark at Knickerbocker Park, One Hundred and Thirty-eighth St. An hour later the balloon was sighted at an altitude of about 1,000 feet over Long Island Sound.

AGAIN LAKE CITY FAILS OF SUCCESS

United States Court Does Not Enjoin Moving of University.

HEARD BEFORE JUDGE SHELBY

Defendants in Case Are Given Until October First to Plead, Answer or Demur—The University Has Been Moved.

Again Lake City has failed in its efforts to keep the University of Florida from being located at Gainesville, the reversal this time coming in the suit argued before Judge David D Shelby of Huntsville, Ala., of the United States circuit court for the Fifth judicial circuit.

The suit was brought as that of the city of Lake City and F. B. Moody, a citizen of Columbia county, Florida, vs. The State Board of Education, the State Board of Control and Andrew Sledd, as president of the University of Florida.

The case was argued before Judge Shelby at Huntsville by Col. J. N. Stripling on behalf of the complainants, and Attorney William Wade Hampton, for the defendants.

The ruling of the court, which was filed here yesterday by Clerk E. O. Locke of the United States court, denies the petition of the complainants for an injunction pendente lite, and places the costs of the case on the complainants.

All the papers placed before the court, including the declaration, are ordered filed here for record. The defendants are given until October 1st, 1906, to plead, answer or demur.

Argument on the prayer for injunction pendente lite was heard before Judge Shelby, in chambers, at Huntsville, Ala., on July 27, 1906

What Was Introduced.

The decision of Judge Shelby, as filed here yesterday morning for record, shows that there was presented to him the following papers:

The bill of complaint first filed at Lake City and then carried before Judge Malone at Quincy, together with the ruling of Judge Malone thereon.

Copy of the order of Judge Malone dismissing the first bill filed in the effort to keep the University at Lake City.

Copy of the order dismissing the bill brought just previous to the filing of the last bill of complaint, a bill seeking to compel the return of such furniture and equipment as had already been moved to Gainesville.

A telegram sent, by President Andrew Sledd, announcing that all the furniture and equipment had been moved from Lake City to Gainesville.

The affidavit of President Sledd that the entire equipment and furnishings of the University had been moved to Gainesville.

The Point Involved.

The principal point that is raised by the complainants and on the strength of which they hope to eventually secure an order from the United States courts compelling the Board of Education, et al., to move the University back to Lake City again, is that clause of the United States constitution which forbids the States to pass any law impairing the obligation of any contract.

The complainants set up that the city of Lake City, and citizens thereof, subscribed a certain sum to be given to the University, together with the site for the buildings, in consideration of the University locating there. The acceptance of the site and the money contribution, they urge, is an acceptance of the contract. Then came the "Buckman bill," etc., consolidating the Florida institutions and followed by the moving of the University of Florida.

This law, therefore, counsel for complainants argue, impairs the carrying out of a contract and therefore they ask the court to decree that it is contrary to the constitution of the United States and therefore null and void.

Though no announcement to that effect has been made as yet, it is probable that the case will go to the Supreme court of the United States before it is finally disposed of.

University Has Moved.

Meanwhile the University of Florida has been moved to Gainesville, and there is now none of the furniture or equipment in Lake City.

Mr. N. P. Bryan, immediately after Judge Malone had dismissed the suits of the complainants, announced that the University would positively open at Gainesville on Wednesday, September 26, 1906. This announcement was made by Mr. Bryan, not as one of the counsel for the defendants in the suits, but in his official capacity as chairman of the Board of Control.

Thus far every effort to keep the institution at Lake City has failed and the outcome of any future move will be watched with interest.—Times-Union.

Purity of Milk.

In Paris the municipal chemists accept milk as pure when it contains one ounce of butter and four ounces of solids per quart. At Bern milk must contain at least 3 per cent of butter and may contain 90 per cent of water. At Berlin the police seize all milk offered for sale which is below the legally required standard of 2.7 per cent of fatty matters. This allows the dairymen to add with safety from 10 to 13 per cent of water to fairly rich milk.

BRUTAL KILLING OF W. C. SELLARS

Night Watchman of A. C. L. At High Springs Shot Like Dog.

THE ASSASSIN IS UNKNOWN

Followed Sellars and Night Watchman Mosely Around the Yards, Afterwards With Murderous Aim Firing Upon the Former.

High Springs, August 7.—A dastardly crime was committed in High Springs last night. W. C. Sellars of Tampa, detective for the Atlantic Coast Line, arrived in town on Monday's passenger train with instructions from Mr. Middlebrook to the agent here to place him on the night force as watchman. He was making the rounds with Night Watchman Mosely, when an armed man was noticed apparently shadowing them. Mosely accosted him, when he told Mosely to let him alone—that he was not after him.

A short while afterward Mosely and Sellars returned to the depot, when the latter was shot at six times from behind box cars, two of the loads of buckshot taking effect and inflicting a mortal wound, from the effects of which he died at 3:30 o'clock Tuesday morning.

Mr. Sellars was conscious at intervals, and gave his wife's name and address, but made no statement in regard to his assassin. While in company with Mosely he saw the man but did not know him, and evidently was unsuspicious of his designs.

The coroner's jury will not be able to get all the evidence and hold its session before Thursday. It is hoped that some light will then be thrown on the mystery.

'Possum Caught in Store.

It is evident that at least one opossum in Florida is possessed of a sweet tooth, since one of the animals has been captured in the candy kitchen, 103 West Main street S.

Nicholas, one of the proprietors of the place, was attracted behind the counter on Monday by a noise resembling the scratching of a dog. Armed with an empty soda water bottle he made haste to get behind the counter, thinking that he would find a skulking dog; but instead of the canine, he was surprised to discover a fine, fat, third-grown 'possum endeavoring to get into a box of candy.

The 'possum was taken into custody for this offense, and is now on exhibition at the store. Somebody else will feast on 'possum after a while.

SECRETARY HUFFAKER OF THE STATE FAIR

Appeared Before Board of County Commissioners Tuesday.

MADE AN IMPRESSIVE TALK

Explained to the Board the New Methods, Etc., of the State Fair Management in Dividing the State Into Sections—Made Good Impression.

Among the most important matters coming up for the consideration of the Board of County Commissioners at their regular meeting Tuesday was that regarding participation in the coming State Fair, to be held at Tampa November 14th to 29th.

The matter was brought up by F. L. Huffaker of Tampa, secretary of the State Fair Association, who briefly but thoroughly outlined plans of the coming Fair, which will without doubt be even superior to that of last November. The last Fair was by far more attractive and successful than any hitherto held in the South.

Mr Huffaker called attention to a number of changes that will be made in the conduct of the coming Fair, all of which met the approval of the board. Principal among these is the division of the State into four sections, the counties of each section competing among themselves for the honor of being the banner county of their particular section. The winning county in each section will receive a handsome banner and $500 cash. The four winning counties will then compete for the grand prize of $1,000. Many other large county premiums, at least half of which could be won by Alachua county, are offered, as are hundreds of individual premiums.

Mr. Huffaker was seconded in his argument by N. A. Callison of the Spring Park Stock Farm, who has already begun preparations for exhibiting and sweeping the live stock board of blue ribbons and cash premiums.

The board deferred action of the matter until a report can be secured from the Alachua County Fair Association, but it appears probable that they will make an appropriation. Alachua county, in view of the many improvements in the conduct of the Fair, and the fact that the attendance of homeseekers will double that of last year, cannot afford to go without representation. There are other reasons, too, why Alachua should be represented at the Fair, which will be given later.

A Fair Proposition.

THE BREAKERS

THE BREAKERS is second to none in location and beach attractions. It is the ideal hotel for summer tourists. Situated upon a high bluff overlooking the ocean, and less than two hundred feet from the rolling surf, it combines the benefits of an ocean voyage with the pleasures of a shore resort. The rooms are large all outside, en suite and single with baths, and thoroughly screened. The dining-room is on the ocean side and one of the most attractive rooms of the hotel. Electric lighting, telephone service and immediate connection with an up-to date livery.

Bus will meet all trains.

In addition to The Breakers it has been possible to add the use of the Clarendon bath houses, bowling alley, pool tables, dancing pavilion and the famous Clarendon fishing pier. The table will maintain the high standard to which Mr. Holt pledges himself, wherever he assumes the management.

The remarkable record for healthfulness, especially for children, is a well established feature.

The proof of all is to join with the many who are booking for the season.

CHINAMEN AS LABORERS.

The manufacturing interests of Florida should be under obligations to C. W. Chase, the naval stores operator, for his demonstration of the fact that, as manual laborers, the Chinese are inadequate to the demand. Mr. Chase, who is a progressive citizen and a shrewd business man, realizing the scarcity of the class of labor for naval stores and sawmills, conceived an idea which, should it have been successful, would have largely solved this problem of the scarcity of labor. He imported, it is said at great expense, about fifty Chinamen from Oregon. They were distributed between Mr Chase's places at Paradise and Fairbanks; but, after three months' trial, it developed that, while the Celestials were willing, they were physically inadequate for the work in the woods. The result is, that today they will return to their far Western homes on the Pacific slope.

When the importation of foreigners is conservatively studied, it will be found that the Scandingvian, or Swede, are among the most desirable, for two reasons: First, they as a rule are of a hardy constitution, and can stand the trials of manful labor with less fatigue and better health; second, they are live, honest, progressive, and attend to their own business. There are several colonies of Swedes in this State, one of which is located at or near Komoko, in this county; and wherever you find a Swedish settlement you find a progressive settlement—and a moral settlement.

If it has come to pass that we must protect our industries by importing labor, let those most deeply interested make a venture on the Swede.

After all, the world stands for one of two creeds: Either, "Down with everything that's up;" or, "Up with everything that's down."

Sydney Smith long ago remarked that "a great deal of talent is lost to the world for the want of a little courage."

CONSTITUTIONAL AMENDMENTS

The proposed amendments to the constitution which will be voted upon at the election in November are now being published in The Sun, and should be carefully considered by the voters. The one creating the Board of Drainage is of vital interest to the taxpayers and is at present the main topic of discussion throughout the State.

While more than one circumstance no doubt contributed to Governor Broward's nomination in the 1904 primaries, the drainage question and his celebrated map of the Everglades undoubtedly contributed more to his success than any other. This was the view the editor of The Sun, as Senator from Alachua county, took of the matter when the drainage amendment was presented to the Legislature of 1905, and, in common with a large majority of the members, voted to let the people pass upon the question. Literature for and against its adoption has been liberally distributed throughout the State, and Governor Broward is actively at work in behalf of this pet scheme of his. As to its merits and demerits The Sun leaves to its readers to pass upon after a thorough study of the question at issue. We cannot refrain, however, from stating that, according to our own judgment, which has been formed not only from the discussion of the drainage question, but from observation and experience during the past fourteen years as a member of the Legislature, it will prove dangerous to delegate more power to the Internal Improvement Fund Board, to which the adoption of the proposed amendment would give increased powers. They have arrogated to themselves undelegated powers in the past, paying no attention to laws passed by the Legislature, claiming to be greater than their creator, and, personally, the editor of this journal will not vote to give them additional powers.

Few people stop to think that their individual happiness is not dependent on outside circumstances. A habit of happiness can be cultivated, like any other habit and just as successfully. Happiness is as much a duty as cleanliness and morality. The cheerful, hopeful temper, which refuses to let itself be harrowed up, it is everyone's duty to cultivate. There is a beautiful legend that at creation's dawn an angel came down to earth, seeking something to take back with it to heaven. It returned with a boquet of flowers, a baby's smile and a mother's love. When it reached the pearly gates of Paradise again the flowers had withered, the baby's smile had vanished, but the mother's love was found to be as pure and eternal as the waters that flowed by the heavenly throne, and all the angels exclaimed: "There is nothing on earth pure enough for heaven but a mother's love."

There is too little brightness in the lives of women in the country. They have too little help in their domestic occupations. The "nurse" in a house where there is a baby to care for ought to be set down as one of the regular expenses as much as the potatoes for the family. A mother's health, both of body and mind, is worth more than additional acres of land, or finer live stock. The heart should not be allowed to grow old. Life should not have lost its charm, the heart its spirit, and the body its elasticity at 40 years. And yet how many women are faded and wan, and shattered in mind and health, long before they are forty. All the joy of life is not in youth's morning. If we so will it, we can, to the last moment of life, be at least negatively happy.

Now they are talking about projecting the beautiful auburn whiskers of J. Ham Lewis into the Thaw case.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Dade county census is being compiled.

It is estimated that the assessed value of property in Duval county will be about $14,000,000.

Another three-story brick hotel is to be erected on East Wright street in Pensacola. It will cost about $25,000.

The labor organizations of Miami are preparing to celebrate Labor Day, Sept. 1, on a more elaborate plan than ever before.

The resting season for farmers down on the East Coast is over and they are now all engaged in preparing lands for an early fall and winter crop of vegetables. The early planting will be mostly on pine and.

Gov. Broward has suspended from office Sheriff Geo. R. Carter of Citrus county, giving as his reason for so doing that Carter at two different times without resistance permitted mobs to take from his custody and lynch two prisoners.

At the last meeting of the city council of Orlando a resolution was passed to submit to the voters a proposition to issue bonds to pave some of the principal streets of the city whith vitrified brick. The proposition is to expend about $12,000. Property owners all favor the plan.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Third Victim of the Wreck.

Lorain, Ohio, Aug. 7.—J. F. Yerrick, the traveling salesman of Elyria, O., injured in the wreck of the Lake Shore Traction line at Vermillion, died in St. Joseph hospital early Sunday. Yerrick's skull was crushed and an operation failed to have beneficial results. Yerrick was the third victim of the wreck to die. Cy Young of Beater Dam, Pa., and Harold Genoel, of Leda, O., for whom there was little hope last night, are still alive and the hospital physicians say they will recover. All told, 54 persons were injured.

Fourth Negro of Victim.

Washington, Pa., Aug. 7.—Robert Edward Pearce, 3-year-old boy, who was shot by the negro, Elmer Dempster, last Sunday night, died of hemorrhages, caused by the bullet wound inflicted. The child was wounded at the time Dempster killed Mrs. Pearce and two other of her children. The death of the child has rekindled the bitter feeling against the negro in the neighborhood of the Pearce home, but there is no fear of violence felt by the jail officials.

Tourists Doped By Swindlers.

Mexico City, Aug. 7.—Three Americans, Fred Jones, Jerome Turner and W. J. Wilson, have been arrested and sent to Belem prison, charged with practicing swindling on American tourists whom, it is alleged, they lured to a bell tower of a cathedral, induced their victims to gamble, and when the latter protested against the swindle, a bogus detective came upon the scene frightening the losers into silence.

Pulajanes on the Warpath.

New York, Aug. 7.—A special from Manila says that one hundred and fifty Pulajanes pierced the military column, burned the municipal buildings, killed the ex-president of the town, two former members of the constabulary and three policemen at Abuyon, Island of Lyte, 20 miles from the scene of the recent fight. Soldiers and constabulary are pursuing the marauders. Major Crawford, Captain Klauber and eight men were ambushed in northern Luzon while shooting some rapids on a raft and the two officers and five men were wounded.

Ball, of Iowa City, Claude Porter of Centreville, and John D. Denison, of Dubuque. All the delegates who have arrived are for a strong endorsement of Bryan for president.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Chicago, Aug. 7.—The Milwaukee Avenue State bank, one of the largest outside of the down town district, and having deposits of more than $3,000,000, Monday closed its doors, following a run on the institution. The first intimation of trouble was the appearance at the bank of 20 policemen who had been dispatched to prevent anticipated disorders, the police department having been notified officially that one of the officers of the bank had absconded.

Dillon Man Bet Wife She Wouldn't Leave Home During His Absence.

Dillon, S. C., Aug. 7.—At an early hour Sunday morning the dead body of Mrs. White Hamilton was found in the lot well on their premises, where it had been since last Tuesday morning.

On that day Willie Hamilton, a farmer living about 2 miles from Dillon, came into town bringing with him his little daughter, the only child, leaving the wife and mother alone. She had expressed some opposition to having the child accompany the father, fearing, she said, that the horse might become frightened at the automobiles and the child be injured, and even said if the father persisted in carrying the little girl she would leave home. Hamilton playfully and banteringly offered her $10, saying he bet she would not leave. When he returned home a few hours later there was no trace of his wife. He saw that she had evidently changed her clothing, and he found the $10 sticking in the fob pocket of the trousers he had laid aside that morning.

Cured Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

Proceedings Temporarily Stopped.

Birmingham, Ala., Aug. 7.—The supreme court of Alabama will probably determine whether or not Judge Samuel L. Weaver, of Jefferson county has jurisdiction over the body of John Williams, the man tried and convicted in Cullman county for the murder of State Senator Robert L. Hipp and who escaped the gallows Friday, July 27, by reason of habeas corpus proceedings, set for a hearing Monday. When the case was called, notice of application for a rule nisi from the supreme court was served on Judge Weaver and Chief Justice Weakley made an order stopping all proceedings for ten days.

Mrs. Maybrick In New York.

New York, Aug. 7.—Mrs. Florence Maybrick, looking much improved in health and under the assumed name of Mme. F. Cheney, arrived incognito on Sunday night on the French liner La Gascogne. She declined to tell her plans. Mrs. Maybrick has been abroad for three months.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character, far from it. The disposition of the average baldheaded man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

CHINAMEN AS LABORERS.

The manufacturing interests of Florida should be under obligations to C. W. Chase, the naval stores operator, for his demonstration of the fact that, as manual laborers, the Chinese are inadequate to the demand. Mr. Chase, who is a progressive citizen and a shrewd business man, realizing the scarcity of the class of labor for naval stores and sawmills, conceived an idea which, should it have been successful, would have largely solved this problem of the scarcity of labor. He imported, it is said at great expense, about fifty Chinamen from Oregon. They were distributed between Mr Chase's places at Paradise and Fairbanks; but, after three months' trial, it developed that, while the Celestials were willing, they were physically inadequate for the work in the woods. The result is, that today they will return to their far Western homes on the Pacific slope.

When the importation of foreigners is conservatively studied, it will be found that the Scandinavian, or Swede, are among the most desirable, for two reasons: First, they as a rule are of a hardy constitution, and can stand the trials of manual labor with less fatigue and better health; second, they are live, honest, progressive, and attend to their own business. There are several colonies of Swedes in this State, one of which is located at or near Komoko, in this county; and wherever you find a Swedish settlement you find a progressive settlement—and a moral settlement.

If it has come to pass that we must protect our industries by importing labor, let those most deeply interested make a venture on the Swede.

After all, the world stands for one of two creeds: Either, "Down with everything that's up;" or, "Up with everything that's down."

Sydney Smith long ago remarked that "a great deal of talent is lost to the world for the want of a little courage."

CONSTITUTIONAL AMENDMENTS

The proposed amendments to the constitution which will be voted upon at the election in November are now being published in The Sun, and should be carefully considered by the voters. The one creating the Board of Drainage is of vital interest to the taxpayers and is at present the main topic of discussion throughout the State.

While more than one circumstance no doubt contributed to Governor Broward's nomination in the 1904 primaries, the drainage question and his celebrated map of the Everglades undoubtedly contributed more to his success than any other. This was the view the editor of The Sun, as Senator from Alachua county, took of the matter when the drainage amendment was presented to the Legislature of 1905, and, in common with a large majority of the members, voted to let the people pass upon the question. Literature for and against its adoption has been liberally distributed throughout the State, and Governor Broward is actively at work in behalf of this pet scheme of his. As to its merits and demerits The Sun leaves to its readers to pass upon after a thorough study of the question at issue. We cannot refrain, however, from stating that, according to our own judgment, which has been formed not only from the discussion of the drainage question, but from observation and experience during the past fourteen years as a member of the Legislature, it will prove dangerous to delegate more power to the Internal Improvement Fund Board, to which the adoption of the proposed amendment would give increased powers. They have arrogated to themselves undelegated powers in the past, paying no attention to laws passed by the Legislature, claiming to be greater than their creator, and, personally, the editor of this journal will not vote to give them additional powers.

Few people stop to think that their individual happiness is not dependent on outside circumstances. A habit of happiness can be cultivated, like any other habit and just as successfully. Happiness is as much a duty as cleanliness and morality. The cheerful, hopeful temper, which refuses to let itself be harrowed up, it is everyone's duty to cultivate. There is a beautiful legend that at creation's dawn an angel came down to earth, seeking something to take back with it to heaven. It returned with a boquet of flowers, a baby's smile and a mother's love. When it reached the pearly gates of Paradise again the flowers had withered, the baby's smile had vanished, but the mother's love was found to be as pure and eternal as the waters that flowed by the heavenly throne, and all the angels exclaimed: "There is nothing on earth pure enough for heaven but a mother's love."

There is too little brightness in the lives of women in the country. They have too little help in their domestic occupations. The "nurse" in a house where there is a baby to care for ought to be set down as one of the regular expenses as much as the potatoes for the family. A mother's health, both of body and mind, is worth more than additional acres of land, or finer live stock. The heart should not be allowed to grow old. Life should not have lost its charm, the heart its spirit, and the body its elasticity at 40 years. And yet how many women are faded and wan, and shattered in mind and health, long before they are forty. All the joy of life is not in youth's morning. If we so will it, we can, to the last moment of life, be at least negatively happy.

Now they are talking about projecting the beautiful auburn whiskers of J. Ham Lewis into the Thaw case.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Written especially for Gainesville Daily Sun.

Time is nothing until it records the impact of human thought and action.

Not what you say, but what you do. Put your goods on the market—that's it!

Just as soon as a fellow gets a fortune, he gets busy trying to prove that he's poor.

The breath and beauty of human character is dependent on the ideal so constantly before you.

Don't wait for things to turn up—turn things up while you wait. That's the genius for this rapid age.

Luck smiles on him that has a mind to will and to do. Indolence prophecies failure—sure and certain.

If you are leading "a dog's life," be sure that it is the life of a St. Bernard—those splendid watchers of the Alps.

If you will put your ear to the world's great heart, you will hear that which sounds like the sobbing of the sea.

You may own vast lodes of gold in some mountain-gulch and then be very poor. Wealth is not real until available.

Bakers Get Wage Increase.

San Francisco, Aug. 7—As a result of the demands of the union bakers for a raise of $3 per week in their wage has been granted. The price of bread will be raised in this city by the bakery owners. The manner in which this will be done has not been agreed on as yet, but it is said a loaf just a little larger than one-half the size of the present loaf is favored by a majority of the master bakers.

Well Known Chemist Dead.

Another three-story brick hotel is to be erected on East Wright street in Pensacola. It will cost about $25,000.

The labor organizations of Miami are preparing to celebrate Labor Day, Sept. 1, on a more eleborate plan than ever before.

The resting season for farmers down on the East Coast is over and they are now all engaged in preparing lands for an early fall and winter crop of vegetables. The early planting will be mostly on pine and.

Gov. Broward has suspended from office Sheriff Geo. R. Carter of Citrus county, giving as his reason for so doing that Carter at two different times without resistance permitted mobs to take from his custody and lynch two prisoners.

At the last meeting of the city council of Orlando a resolution was passed to submit to the voters a proposition to issue bonds to pave some of the principal streets of the city whith vitrified brick. The proposition is to expend about $12,000. Property owners all favor the plan.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Third Victim of the Wreck.

Lorain, Ohio, Aug. 7.—J. F. Yerrick, the traveling salesman of Elyria, O., injured in the wreck of the Lake Shore Traction line at Vermillion, died in St. Joseph hospital early Sunday. Yerrick's skull was crushed and an operation failed to have beneficial results. Yerrick was the third victim of the wreck to die. Cy Young of Beater Dam, Pa., and Harold Gensel, of Leda, O., for whom there was little hope last night, are still alive and the hospital physicians say they will recover. All told, 54 persons were injured.

Fourth Negro of Victim.

Washington, Pa., Aug. 7.—Robert Edward Pearce, 3-year-old boy, who was shot by the negro, Elmer Dempster, last Sunday night, died of hemorrhages, caused by the bullet wound inflicted. The child was wounded at the time Dempster killed Mrs. Pearce and two other of her children. The death of the child has rekindled the bitter feeling against the negro in the neighborhood of the Pearce home, but there is no fear of violence felt by the jail officials.

Tourists Doped By Swindlers.

Mexico City, Aug. 7.—Three Americans, Fred Jones, Jerome Turner and W. J. Wilson, have been arrested and sent to Belem prison, charged with practicing swindling on American tourists whom, it is alleged, they lured to a bell tower of a cathedral, induced their victims to gamble, and when the latter protested against the swindle, a bogus detective came upon the scene frightening the losers into silence.

Pulajanes on the Warpath.

New York, Aug. 7.—A special from Manila says that one hundred and fifty Pulajanes pierced the military column, burned the municipal buildings, killed the ex-president of the town, two former members of the constabulary and three policemen at Abuyon, Island of Lyte, 20 miles from the scene of the recent fight. Soldiers and constabulary are pursuing the marauders. Major Crawford, Captain Klauber and eight men were ambushed in northern Luzon while shooting some rapids on a raft and the two officers and five men were wounded.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Dillon Man Bet Wife She Wouldn't Leave Home During His Absence.

Dillon, S. C., Aug. 7.—At an early hour Sunday morning the dead body of Mrs. White Hamilton was found in the lot well on their premises, where it had been since last Tuesday morning.

On that day Willie Hamilton, a farmer living about 2 miles from Dillon, came into town bringing with him his little daughter, the only child, leaving the wife and mother alone. She had expressed some opposition to having the child accompany the father, fearing, she said that the horse might become frightened at the automobiles and the child be injured, and even said if the father persisted in carrying the little girl she would leave home. Hamilton playfully and banteringly offered her $10, saying he bet she would not leave. When he returned home a few hours later there was no trace of his wife. He saw that she had evidently changed her clothing, and he found the $10 sticking in the fob pocket of the trousers he had laid aside that morning.

Cured Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

Hipp, and who escaped the gallows Friday, July 27, by reason of habeas corpus proceedings, set for a hearing Monday. When the case was called, notice of application for a rule nisi from the supreme court was served on Judge Weaver and Chief Justice Weakley made an order stopping all proceedings for ten days.

New York, Aug. 7.—Mrs. Florence Maybrick, looking much improved in health and under the assumed name of Mme. F. Cheney, arrived incognito on Sunday night on the French liner La Gascogne. She declined to tell her plans. Mrs. Maybrick has been abroad for three months.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character, far from it. The disposition of the average baldheaded man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

CHINESE FORM LAUNDRY TRUST

Thirty-five Celestials, It Is Understood Will Raise Prices for "Washee."

Atlanta, Aug. 7.—For the first time in the history of Atlanta a Celestial trust has been formed in the city.

Maddened with the ever-present craze for money, it is stated that 35 Chinamen, owners of as many laundries, have formed a combine with a view to raising prices, the new schedule becoming effective during the present week. While several reasons for the combination are announced, such as the hire of negro help and the like, presumably the main object is to get rich quicker.

Every Chinaman look forward to the time when, by stinting and starving, he will have saved enough to return to the Flowery Kingdom for some little olive-eyed maiden waiting there for him. Under the present system of laundry prices it requires long years of waiting. Why not hasten the time by conforming to one of the 'Melican man's most common customs and organize a trust?

Thus it is that a new scale of prices will go into effect during this week. Instead of 1½ cents apiece, collars are now 2 cents, cuffs 3 cents a pair, and so on through the list of "washee."

The result of the Chinamen's action cannot be foretold. There may be an onrush upon the larger laundry establishments. Yet the increase as announced by the former is slight and it is possible that there will be no falling off in their trade.

One thing is certain. If many Chinamen find it impossible to satisfactorily explain the oncrease in prices to their negro suctomers, the number of "police" calls will be greatly increased.

Children in Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by W. M. Johnson.

Steamer Puritan Breaks Shaft.

New London, Conn., Aug. 7.—The steamer Puritan, of the Fall River, line, broke a shaft off New London harbor early Tuesday. The steamer came to anchor in the fog off Sarahs Ledge. The eight hundred passengers bound from New to Fall River were transferred to the railroad station by tugs. A train was made up here to carry the passengers to their destination. The fog on the sound was unusually thick.

'Frisco Bankers Loan $30,000,000.

San Francisco, Aug. 6.—San Francisco National banks have, since the fire, loaned in New York on six month paper, $30,000,000 at rates of interest ranging from 4½ to 6 per cent. There is a superabundance of money here at present and bankers are finding New York fields a fertile one for short-time loans, for terms not exceeding six months and with the best of collateral security. Bankers say that loans for rebuilding the burned district will be required in the next five or six months.

GREENE-GAYNOR TRIAL IS SET.

Court of Claims Case Is Fixed for September 27th.

New York, Aug. 6.—At the request of Kellogg & Rose, of this city, counsel for Greene and Gaynor, under conviction for embezzlement in connection with harbor improvements at Savannah, Ga., the attorney general of the United States has fixed September 27th next as the date for the examination by the government of Greene and Gaynor in their claims now pending against the government in the court of claims. The examination will be held at the prison in Macon, where Greene and Gaynor are confined, according to a statement made by L. Laflin Kellogg, who said he had received notice to that effect from Attorney General Moody at Washington.

"This is the action," said Mr. Kellogg, "brought by the Atlantic Contracting company under which name Greene and Gaynor did business, against the government to recover damages for breach of the same contracts which formed the basis of the charges on which they were recently convicted at Savannah. Our clients' claims amount to $350,000 actually earned and certified by the government officers and admitted unpaid for, in addition to over $500,000 in profits on work remaining to be done.

"After all the evidence for the plaintiffs in these proceedings had been introduced, the government procured a stay, pending the absence of Greene and Gaynor in Canada. Their presence in this country now makes its necessary for the stay to be vacated and the examination had. This course was taken at the suggestion of counsel for the plaintiffs, who are anxious to proceed with the case."

Greene and Gaynor were convicted at Savannah. They were fined over $500,000 and sentenced to serve two years each in prison.

A COIN OF COURTESY

THE GUINEA OF THE ENGLISHMAN IS NOT A COIN AT ALL.

As a Piece of Real Money It Has No Existence, and It Is Used Only In Imagination as a Rather Awkward Standard of Monetary Value.

Of all the obstacles that confront the Englishman the guinea is the most amazing. The other day an American guest inquired of me, "What is a guinea?" He had been asked for one by a circulating library. It seems an easy question to answer, but as I had been puzzling over the division of an imaginary guinea into four parts the explanation took time. It was as difficult as explaining cricket to a German—in German.

"Show me one," said the American.

I confessed that I did not possess one.

"What, not $5.25?"

"Yes, but not a guinea. We don't have a guinea in England any more."

"But you talk in guineas!"

"That's our fun," I replied lamely.

Nevertheless there is something to be said for our system. Indeed, one might argue that this incessant obstacle race over the multiplication tables that we have to enter insures a bracing of the muscles. We are always kept on the alert to fathom the relations between a pottle, a perch and a guinea or some such absurd and fortuitous combination. And one may suspect that this tightening and strengthening of the muscles in the obstacle race is really the source of England's greatness.

For all practical purposes the guinea—in which we talk—is the most preposterously absurd coin in the world, for it does not exist—corporeally. Some few honest citizens wear spade guineas on their watch chains. But if they tried to pass them over to the booking clerk on the underground railway they would be in danger of the judgment. There are no guineas in England. Yes, in imagination they exist.

And never more accuse yourself of belonging to an unimaginative nation of shopkeepers! The guinea is the coin of courtesy, just because it is not a coin at all. And its preservation as an anomaly is a curious proof of the intense courtesy of the Englishman, who will face any arithmetical inconvenience rather than put a slur on a friend.

This you may see from the lists of subscriptions for the gentleman in distress. You cannot offer him the necessities of life. When the friend falls by the wayside it must be guineas, not sovereigns, that you supply, and one is glad that the remarks of the finest sport that exists—the sport of kings—offers prizes in "sovs." It is purely the analogue of that convention which regulates gifts between equals. Etiquette forbids your sending a friend a leg of mutton—that is, a sovereign, the ordinary, humdrum coin. But you may send him pheasants, oysters, grouse or salmon, more especially the salmon is the victim of your own line, pole and perch." Possibly the true explanation is that, as a matter of courtesy, you may not give a man what he could obtain at the nearest shop—it must be something that is not easily obtainable.

Now, a guinea is not easily obtainable, and the difference between offering a man a guinea and offering him a sovereign is the difference between sending a man a leg of mutton and sending him a barrel of oysters. That little silly shilling stuck on to the sovereign, that retention of the ghost of a coin long dead and borne on a watch chain, with the locket containing a lock of great-great-auntie's hair, was significance.

It is the embodiment of the Englishman's innate idealism. It is like the delightfully silly "Esq." which we tack on to the names of friends. There are no squires nowadays and no guineas, but we see them with the eye of faith. For we sacrifice to our faith considerable muscular exertion, many blobs of ink and sundry shillings that might otherwise stock our houses with cheap reprints of the world's best books.

You will naturally conclude that I did not put this view before my American friend. He would scarcely understand it. I led him gently to the palatial bank premises into which I hurriedly cast my weekly wage for fear I should lose it on the way home and handed out to him flowering my voice prettily, as becomes the suppliant in the temple of wealth.

"Note that young man," I said. "He is piling up three columns of figures. These are guineas, things that won't rhyme with half crowns or four shilling pieces or florins or half sovereigns or sovereigns, but you will perceive that this young man is taking a pride in his stride. Now, what about species?"

"I should conclude," said the American guest thoughtfully, "that a young man who can put 12 guineas together can make 'em dollars can do anything."

"Twelve guineas," I explained as we went into Piccadilly, "is the source of England's greatness." And the American guest remained thoughtful.—London Chronicle.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very severe nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctor said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am

Yours truly,
W. C. DANIEL.
